Perfect water management solutions

**NEW**  
**Agriplas Sprinkler LPD**

The new Agriplas Sprinkler LEAKAGE PREVENTION DEVICE or LPD, as they are better known, is specifically designed to prevent water wastage and crop damage by preventing back flow from pipes and irrigation systems after system shut-off, thereby contributing to a water saving of up to 10%.

**MAIN FEATURES:-**

- Minimal head loss
- Supports water heads of up to 5 meters
- Saves water and improves irrigation system operation
- Prevents sprinkler blockage
- Easy to dismantle for cleaning and maintenance
- Made of high quality non-corrosive material
